EDUCATION

2019 - 2025 | BSIT - Computer Technology
TALISAY CITY COLLEGE

2017 - 2019 | TVL - Information and Communication Technology
TALISAY CITY SENIOR HIGH SCHOOL

2012-2016 | TALISAY CITY NATIONAL HIGH SCHOOL

WORK EXPERIENCE

Software Developer / Lodong – Web Development Company
Full-time (Remote - Korea based company) - 2025

- Developed and maintained website applications to ensure optimal performance and user experience.
- Improved existing projects by identifying bugs, implementing fixes, and adding new features.
- Collaborated with cross-functional teams to deliver high-quality web solutions on time.
- Communicated effectively with team members and stakeholders to clarify requirements and provide updates.

Website Developer Intern / Armada Logics, Inc.
Full-time (Remote) - 800 hours

- Completed an internship focused on intensive training in Web Fundamentals, Java, and React.js
- Accomplished over 100 hands-on tasks and challenges, strengthening skills in HTML, CSS, JavaScript, Bootstrap, Java OOP, and React component-based development
- Participated in regular code reviews to improve writing clean, efficient, and maintainable code
- Built a front-end Food App using Bootstrap and JavaScript, applying real-world UI/UX practices and responsive design
- Gained a strong foundation in front-end development and practical problem-solving

Front-end Developer Intern / Open'Space Technologies, Inc.
Full-time (Hybrid - Cebu) - 800 hours

- Developed a custom front-end travel application using WordPress, Elementor, HTML, CSS, and JavaScript for a client demo
- Showcased a fully responsive design with a user-friendly layout
- Implemented interactive sections including destinations, booking forms, package listings, dynamic payment flow, and an admin dashboard
- Actively improved development skills during free time by exploring new technologies to enhance project quality and stay updated

Sales Representative / Concentrix
Full-time (onsite) | May 2023 - January 2024

- Sold and activated satellite radios for current and new SiriusXM customers
- Provided technical assistance for radio, financial, and account-related issues
- Strengthened problem-solving skills and logical thinking
- Improved ability to troubleshoot complex systems — valuable in programming

Technical Support / Qualfon
Full-time (Onsite) | June 2022 - January 2023

- Sold StraightTalk SIM cards and activated customer subscriptions
- Provided customer support for technical and troubleshooting inquiries
- Strengthened analytical thinking and attention to detail
- Developed real-time problem-solving skills applicable to programming and software debugging

PROJECTS

Solar Maintenance App
Contributed by modifying the UI to be fully responsive and improving API connections for seamless performance.
Tech used: .Angular , TypeScript, Bootstrap, Modular CSS, Java, Spring Boot, Swagger UI, Git , GitHub

Care Management Website
Built a responsive web app for elderly service assistance, including features for meal assistance, bathing support, exercise routines, and more.
Tech used: Next.Js , TypeScript, Redux, Axios, Modular CSS, Framer Motion, Java, Spring Boot, Swagger UI, Git GitHub

Lodong Company Dashboard
Integrated APIs and improved data handling features for the company's internal dashboard, enhancing efficiency and usability.
Tech used: Next.Js , TypeScript, Redux, Axios, Modular CSS, Framer Motion, Java, Spring Boot, Swagger UI, Git GitHub

School Website
A responsive, performance-optimized website showcasing school information, programs, enrollment, events, and services. Includes contact details for inquiries. Backend integration coming soon
Tech used: HTML5, CSS3, Bootstrap, JavaScript, AOS, Formsubmit, Git, GitHub

Online Movie Streaming
A responsive movie streaming web app that allows users to browse, search, add watch list and view movie trailers in real-time.
Tech used: React.js, TailwindCSS, JavaScript, Axios, React Router, Node.js, Express.js, MongoDB, Git, GitHub

Travel App
Built a fully responsive travel app UI featuring package tours, chat functionality, an admin dashboard, and a chat inbox. Showcased dynamic UI, mobile-ready design, and real-time interactivity for a client demo.
Tech used: WordPress, Elementor, HTML5, CSS3, JavaScript

SOFT SKILLS

- **Excellent Communication and Active Listening**
- **Problem Solving and Troubleshooting**
- **Customer Service & Relationship Building**
- **Patience and Empathy in Client Interactions**
- **Time Management and Multitasking**
- **Adaptability and Flexibility**
- **Sales Persuasion and Negotiation**
- **Team Collaboration and Support**
- **Responsible and Disciplined Work Ethic**
- **Quick Learner with a Growth Mindset**

TECHNICAL SKILLS

Front-End Development

- HTML5, CSS3, JavaScript, TypeScript, Next.js, React.js, React Router, Redux, Axios, AOS
- Tailwind CSS, Bootstrap, DaisyUI, SCSS
- WordPress, Elementor

Back-End & Full Stack

- Java (OOP), SQL
- Currently learning the MERN Stack (MongoDB, Express.js, React.js, Node.js)

Tools & Platforms

- VS Code, IntelliJ, Git, GitHub, Local by Flywheel
- Notion, Trello, Spread Sheet

Design & UI/UX

- Figma, Canva, Responsive Design, Component-Based Architecture

Data Analytics

- Power BI, Excel, SQL
- Data Visualization, Data Cleaning, Data Transformation, Data Modeling
